† For each school district for each year, we computed classroom funding per pupil, calculated the cut in funding per pupil in 2011-12, then calculated how much of the funding cut in 2011-12 had been restored by 2014-15. Based on the size of the cut in funding per pupil that remains, we divided Pennsylvania's 500 districts into four groups of 125 districts each. We refer to the 125 districts with the largest cuts remaining as the "first quartile" and the 125 districts with the smallest cuts remaining as the "fourth quartile."
